**8-12 complete 2 projects**

**13-18 complete 3 projects**

Jesus came to serve. As followers of Christ, we may also learn to serve others. During this time, especially, we need to find ways to serve those around us. Can you think of someone who needs help?

Listed below are a number of ideas for helping others. If you can think of another way to help, you may do that instead of one of the recommendations given here. Please have someone take a picture of you performing the helpful task; then write a short summary about the experience. (If you can't yet write, maybe a parent or older sibling can help you.)

### The summary must include the following:

- 1)** the person or organization you helped
- 2)** the way in which you helped, and
- 3)** how you felt about this experience

### Ideas include, but are not limited to, the following:

- a)** Babysit younger siblings so your mom can have some quiet time to herself.
- b)** Fix a nice meal for everyone in your home without being told.
- c)** Make a care package to send to someone who needs encouragement.
- d)** Have a video chat or phone call with a person who might need encouragement.
- e)** Clean or organize a part of your house that has been forgotten (every house has one of these).
- f)** Read the Bible aloud to someone – either in person or on the phone.
- g)** Volunteer to help with a project for your church, field, or union.
